Powered by 

## Mission

To empower organisations with seamless, secure, and scalable compliance solutions that keep workers verified, reduce risk, and accelerate operational readiness.

## Vision

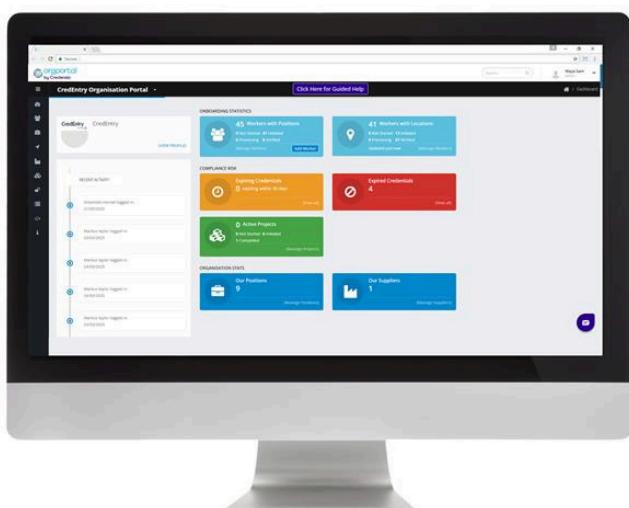

To be the trusted partner for industries where safety, compliance, and efficiency are non-negotiable – transforming how businesses verify workers, manage suppliers, and control access.

# OVERVIEW

Our solution ensures that only verified, compliant personnel gain access to site via pre-site credential checks, live compliance status, and Digital IDs.

Credentials are always current, verified at the source, and automatically linked to role and location requirements tailored to your organisation's unique complexity.

## Features

- 🕒 **Digital IDs**
- 🕒 **Primary-Source Verification**
- 🕒 **Role & Location Requirements**
- 🕒 **Real-Time Monitoring & Alerts**
- 🕒 **Access Control Integration**
- 🕒 **Visitor Management Module**
- 🕒 **Contractor Management**
- 🕒 **Compliance Dashboard**
- 🕒 **Local Customer Support**
- 🕒 **Flexible Pricing**

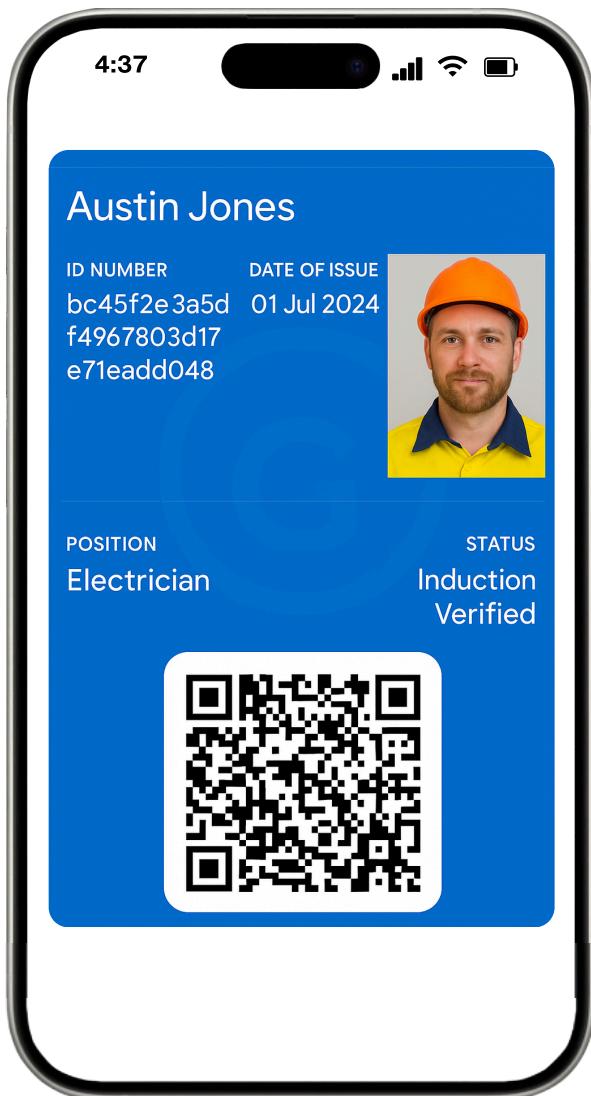

# DIGITAL ID

Instant access with verified digital credentials

CredEntry Digital IDs replace physical cards with live, verified profiles that can link directly to site access systems.

Once a worker is verified, their Digital ID is issued instantly and can be stored in Apple or Google Wallet for convenience.

Every Digital ID displays the worker's live verification status, ensuring only compliant personnel can enter. If a licence, induction, or credential expires, access is automatically revoked – protecting your sites and guaranteeing a continuously compliant workforce.

## Features

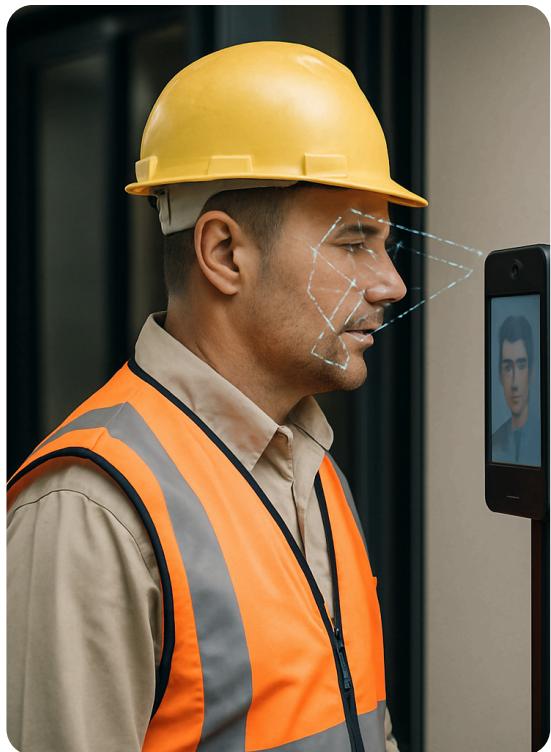

-  **Instant Site Access** for verified workers
-  **Improved Safety & Compliance** at every checkpoint
-  **Real-Time Verification Status** linked to Credenx profile
-  **Automatic Restriction** for expired credentials
-  **QR Code Credential Display** for on-site compliance checks
-  **Access Control Integration** for seamless site operation
-  **Environmentally Friendly** and waste-free

# VISITOR MANAGEMENT

## Seamless visitor entry with complete audit visibility

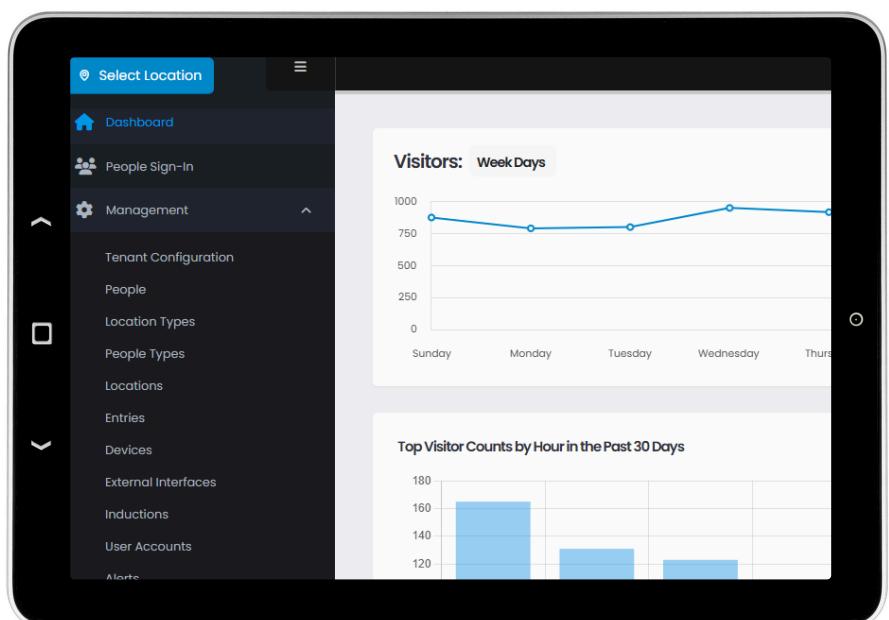

Complete visibility of who enters and exits your sites makes compliance, audits, and incident reporting effortless. Integrated with Credenxia for pre-visit onboarding and verification, every visit is seamless, secure, and safe.

When visitors arrive, our facial recognition technology verifies their identity in real time, granting access to approved areas on site based on your compliance rules. This ensures that only verified, authorised visitors can move through your facilities.

## Features

- Pre-Visit Onboarding
- Biometric Sign-In
- Emergency Alerts
- Integrated Access Control
- Audit-Ready Visitor Logs
- Reporting Dashboard
- High-Risk Area Restriction

## Seamless Onboarding & Verified Access.

Keep your site safer by ensuring only verified, qualified workers and visitors gain access.

- 🕒 Credentials verified directly at the source to prevent fraud
- 🕒 Automatic alerts for expiring licences & inductions
- 🕒 Custom requirements tailored to your organisation
- 🕒 Only qualified, verified workers gain access
- 🕒 Compliance enforced automatically across all roles and locations

## Reduced Admin, Supported Locally.

Our WA-based team ensures smooth onboarding and rapid problem resolution, taking the pressure off your admin staff.

- 🕒 CredEntry absorbs worker and contractor support queries
- 🕒 Expired credentials trigger instant access restrictions
- 🕒 Proactive monitoring ensures issues are flagged before they impact operations
- 🕒 Local expertise and tailored support for high-risk industries

## Pricing that Scales with Your Operation

**Active Workforce Package** Priced per worker depending on the level of credential checks and verification required.

**Supplier Network Package** Enables subcontractor and supplier company compliance checks, while also managing the billing and procurement of active worker fees within those companies.

- 🕒 Pay only for active workers and suppliers
- 🕒 Costs scale with your operation
- 🕒 Discounts available for long-term agreements

## About CredEntry

CredEntry is Australia's trusted digital compliance platform for high-risk industries. We ensure only verified and qualified personnel access site, giving organisations peace of mind with back-to-source credential checks and fraud detection.

By integrating seamlessly with your existing systems, CredEntry creates a complete digital ecosystem that removes bottlenecks, reduces admin costs, and keeps projects moving. Real-time monitoring and audit-ready reporting make compliance effortless while strengthening safety and control.

Trusted across transport, mining, construction, and aged care, CredEntry delivers confidence, efficiency, and a safer, smarter way to work.
